1978 Article Index

Electrical/Electronics Assembly

Better Assembly Ideas for Electrical/Electronic Products, Jan. p. 38
On-Line Automatic Test Equipment Cuts Costs, Improves Quality at NCR, Part 1, Terrence Thompson, Feb. p. 40
On-Line Automatic Test Equipment Cuts Costs, Improves Quality at NCR, Part 2, Terrence Thompson, Mar. p. 32
"I See," said the Robot, Terrence Thompson, Apr. p. 44
Caustic Comments About Flux, Part 1, Terrence Thompson, May p. 36
Caustic Comments About Flux, Part 2, Terrence Thompson, June p. 44
Understanding Flat Cable—A Design and Assembly Guide, Part 1, Terrence Thompson, July p. 28
Understanding Flat Cable—A Design and Assembly Guide, Part 2, Terrence Thompson, Aug. p. 26
PWB Automatic Test Equipment: Why You Need It, Terrence Thompson, Sept. p. 20
Comparing Computer Systems Integration and Test Flows, Mike Drees, Sperry Univac, Oct. p. 22
Fluxless Ultrasonic Soldering Prevents Flux Residue Problems, F. John Fuchs, Blackstone Ultrasonics Inc., Nov. p. 12
Lasers, Dental Drills and Automatic Test Equipment—On-Line Assembly Tools for Honeywell, Terrence Thompson, Dec. p. 18

Ideas and Developments

Color Copier Improves Electronic Assembly Operations, Apr. p. 52
Breakaway Tape Adhesive Reduces Transformer Size, May p. 41
Bubble Cleaning System Removes Contamination From Core Memory Assemblies, Oct. p. 28
PWB Parts Carrousel Speeds Repairs, Cuts Inventory, Oct. p. 25
NASA's Fast Laser Wire Stripper Doesn't Damage Conductors, Nov. p. 16

Design/Fastening/Joining

Cutting Product and Assembly Cost, Jan. p. 26
Fittings for Leak-Free Hydraulic Lines, Part 1, Dr. Z.J. Lansky, Parker Hannifin Corp., Feb. p. 32
Fittings for Leak-Free Hydraulic Lines, Part 2, Dr. Z.J. Lansky, Parker Hannifin Corp., Mar. p. 26
Have You Tried . . . Hot Melts? Leonard R. Vertnik, General Mills Chemicals, Apr. p. 36
Metric/Inch Mismatches, Richard D. Holtz, May p. 28
Tamper-Resistant Fasteners, Part 1: What's Available, Jack B. Levy, General Electric Co., June p. 34
Tamper-Resistant Fasteners, Part 2: Where to Get Them, Richard D. Holtz, July p. 22
An Update On Metric Fasteners, Part 1, Richard D. Holtz, Aug. p. 20
An Update On Metric Fasteners: Status of Standards, Part 2, Richard D. Holtz, Sept. p. 40
Chemical vs Mechanical Gaskets: Choose the Right Gasket Material, Donald J. McDowell, Fel-Pro Inc., Oct. p. 32
Grumman Flxible's 870 Bus: Design for Efficiency, Richard D. Holtz, Nov. p. 18
Acrylic Structural Adhesives—Challenging the Epoxies, Bernard Gould, Beacon Chemical Co., Dec. p. 24

Ideas and Developments

. . . and Around and Around the Studies Go in Washington Merry-Go-Round, June p. 39
Where We Stand On Metric Fasteners Today, Herman Muenchinger, Continental Screw Co., Sept. p. 42
This Riveting Operation Is Almost Free, Sept. p. 45
Evaluating Stud Materials, David D. Foland, A.C. Spark Plug Div., Dr. Henry C. Kowalski, General Motors Institute, and Assoc. Prof. Charles White, General Motors Institute, Sept. p. 48
New Recesses for Fasteners Ease Camout Problems, Oct. p. 38

Assembly Systems

Winning the Battle Against Increasing Assembly Costs, Jan. p. 44
EB Welding Takes Off, Richard D. Holtz, Feb. p. 46
Need a Fast, Versatile Fastener? Try Wire Stitching, Edward A. Colechia, Bostitch Div. of Textron, Mar. p. 38
New Assembly Technology Used On "Car of the Year," Apr. p. 56
Solid State Controls Solve Problems for Schick, J. Wtorkowski and H. Yaglowski, Schick Safety Razor Co., May p. 44
Automatic Inspection and Test . . . A New Era in Mechanized Assembly, June p. 52
How to Fixture for Better Brazing and Soldering, Frank R. Marciniak, Lucas-Milhaupt, July p. 34
British Leyland Enthusiastic About Fastening System, Aug. p. 32
PWB Automatic Test Equipment: The Choice Is Yours, Sept. p. 32
Assemblex '78, Oct. p. 42
Grumman Flxible's 870 Bus: A New Way to Build Buses, Richard D. Holtz, Nov. p. 26
A Winning Combination . . . Multiple-Head Riveters and Metal-Piercing Rivets, Stewart G. Smith, Davidson Rubber Company, Inc., Dec. p. 32

Ideas and Developments

Video Replay Analysis Debugs Assembly Equipment, May p. 48

Management

Keys to Productivity Improvement . . . How Does Your Company Rate? Jan. p. 22
Job Safety Is Everybody's Business, Feb. p. 22
Better Decisions With Statistics, Ken Kivenko, P.E., Canadian Marconi Co., Mar. p. 18
How to Prevent Manufacturing Obsolescence, Apr. p. 30
ASM's Technology Forecast, May p. 22
GT and CAPP Cut Work-in-Process Time 80%, Part 1, Richard D. Holtz, June p. 24
GT and CAPP Cut Work-in-Process Time 80%, Part 2, Richard D. Holtz, July p. 16
The Design of Safe Products: Guidelines from the Law, Part 1, Alvin S. Weinstein, Carnegie-Mellon University, Aug. p. 14
The Design of Safe Products: Guidelines from the Law, Part 2, Alvin S. Weinstein, Carnegie-Mellon University, Sept. p. 52
Delphi Studies Forecast Future Manufacturing, Oct. p. 52
Grumman Flxible's 870 Bus: Managing for Efficiency, Richard D. Holtz, Nov. p. 32
What Makes a Manager Successful?, Roderick Wilkinson, Bearsden, Dec. p. 36

Ideas and Developments

Assemblex '78—it's on the way, Mar. p. 25
More Efficiency at a Lower Cost Through Automatic Assembly Documentation, J.T. Henderson, P.E., Gulton Industries, June p. 30

Down the Line

Four Extra Pistons, a Wing and a Prayer, May p. 94
Recycled House, June p. 106
The Racers' Tool Man, Sept. p. 98
Fun in the Sun—Age Group 8 to ?, Dec. p. 74
